20a. How does the Committee accomplish its purpose?

The Aviation Rulemaking Advisory Committee (ARAC) accomplishes its purpose by holding four meetings a year discuss taskings, review recommendations, and working group status reports. Minutes are taken at these meetings and are part of the public record. The ARAC uses the Transport Airplane and Engine (TAE) Subcommittee to address all taskings related to transport airplanes and engines. The TAE Subcommittee meetings roughly two times a year to discuss FAA, Transport Canada, and EASA activities, as well as taskings, recommendations and working group status reports.

20b. How does the Committee balance its membership?

The FAA balances ARAC membership by considering key aviation stakeholder groups to include associations and organizations. Voting members represent organizations directly and indirectly impacted by FAA regulations (e.g., aircraft owners and operators, airmen and flight crewmembers, organizations representing airports, maintenance providers, manufacturers, public citizen and passenger groups, and training providers)

20c. How frequent and relevant are the Committee Meetings?

The ARAC held four meetings this fiscal year and provides a forum for the members to: (1) review the work products of the technical groups; (2) review the status of ongoing taskings; (3) discuss and accept new tasks; and (4) learn how the FAA is using the ARAC's recommendations. The TAE Subcommittee met two times this year to formulate recommendations to address their taskings. They also discuss issues from the ARAC that will affect TAE.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

Because of the restrictions placed on regulatory agencies by the Administrative Procedure Act, the agency cannot solicit the advice of its affected public prior to issuing regulatory proposals unless it goes through the public-meeting process or establishes a formal advisory body. ARAC includes members representing virtually every interest that could conceivably be affected by agency rulemaking (including the general public), thus enabling the agency to obtain vital input before it publishes a proposal.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

Committee membership includes no more than 30 members, but allows for alternates.

The listed membership includes both regular and alternate members.

Narrative Description

The Aviation Rulemaking Advisory Committee (ARAC) provides the Federal Aviation Administration (FAA) with information, advice, and recommendations. The ARAC's objective is to improve the development of the FAA's regulations by involving interested members of the aviation community in the developmental stages of rulemaking.
